Meeting with the agribusiness in Lezha, 10th December 2016

10th December 2016, Lezha farming opens up to the idea of exporting its agriculture products to UK.

The Chamber received a very warm welcome from the Mayor of Lezha and the businesses. Lezha is a known place for the production of fruits, vegetables, herbs or honey complemented by sea fish and lovely tourism all waiting to be explored.

The meeting with the farmers produced great interest and above all some concrete potential for the banks and investors to jump in and support the growth of already successful companies. These meetings are all about creating a platform for the businesses, investors and finance services providers like Credins Bank to come together understand the needs of the market and offer their service or create a new product to address the need.

The meeting in Lezha produced a great surprise with ready approved product to be exported in EU and UK.
